Why Four Thousand (4000) People Do Business With Us.

Surely it is not accidental, seeing that our list is gradually becoming larger.

There must be a good reason.

Here in the bank we feel that it is because of our unfailing courtesy and our intense desire to make the thing actually worth while.

These motives are reflected in the service we

NEW TEST OF ORDER BARRING ALIENS TO

By Associated Press.

Detroit, Nov. 29.—A new test of an immigration order which aft dreds of aliens residing in Can-ada and Mexico from crossing the borders daily to work in the United' States, is to be made in federal court here. The test led to arrest late yesterday, of Joseph Cox, 25, of Windsor, Ontario, who attempted to enter the United States after having been barred November 7, by a special board of inquiry. He is an iron worker and has been employed in Deroit. He was barr ed for not having an immigration

The government won in the first test of the immigration order yes-terday when Federal Judge Charles C. Simmons dismissed a bill of complaint by two aliens calling on show cause why they should not be restrained from enforcing the new order. Judge Simons dismiss-ed the bill on the grounds of lack of jurisdiction. Edward G. Degree, attorney for the plaintiffs, announced he would make a second test and the arrest

Cox followed. Cox told imigration inspectors that although he had been barred by the board of inquiry he had ap-pealed his case to the Secretary of Labor who had not yet made a decision. Judge Simmons has set December

as the date for hearing the case. Since the commuters' ban goes into effect December 1, Deffree is at-tempting to arrange for an earlier

tion from Washington, immigra-tion authorities say that approxi-mately 1,000 allens who work in De-troit will be barred when the order takes effect Thursday.

NEW FORD TO BE POWERED BY FORTY HORSEPOWER MOTOR

By Associated Press.

Detroit, Mich., Nov. 29.— The New Ford car will be powered with a forty horse power motor, will be of the standard, selective gear shift type and will be equipped with hydraulic shock absorbers, a supplement announced by the Ford Motor Company disclosed today.

The announcement revealed several additional details of mechanical construction. Among these are: a multiple dry disc clutch; a thermo-siphon cooling system; a new battery, coil and distributor ignition; one piece welded steel-spoke wheels; three quarters floating axle in a forged steel housing and a "theft proof coincidental lock."

Four wheel brakes were previously announced. Six body types are mentioned. The price of the new car was withheld.

Ford Company Stock Goes Skyrocketing

By Associated Press. New York, Nov. 29.— Common stock of the Ford Motor Company of Canada, the only enterprise of Henry Ford in which the outside, public now has an interest, opened on the New York Curb market today with a block of 180 shares at \$790 a share, an overnight gain of \$65. The stock had sold as low as \$292 a share earlier in the year.

First Pictures of the New Ford Car

FEATURES OF THE NEW FORD CAR

55 TO 65 MILES AN HOUR

The new Ford has unusual speed: It will do 55 to 60 miles an hour with ease. This is a conservative statement. In ay road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and fety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power and power to spare to climb them all withous greatly reduced speed, without strain, or unnecessary shifting of gears.

40-HORSE-POWER ENGINE

At 2200 revolutions per minute, the new Ford four-cylinder engine develops 40 horse-power. This r. p. m., or revolution speed, is low for such power and shows that the engine is unusually efficient. It also means long life, for the lower the speed of the engine, the less the wear on its parts. The bore is 3% inches and the stroke 4% chee. (S. A. E. and N. A. C. C. rating for license purposes, 24.03 horse-power.)

REMARKABLE ACCELERATION

The new Ford is remarkably quick on the get-away. In seets in high gear, with a Tudor sedan body and two gers, it has accelerated from 5 to 25 miles per hour in 81/2 seconds. This acceleration is an outstanding re of the new Ford car.

PREVENTING VIBRATION

pine in the new Ford is practically vibrationless: This is due in part to its lower r. p. m., the statically and dramming balanced crankshaft, and the aluminum piss. To insure quiet, the timing gears are made of bakefined fabric instead of metal, and the cams on the camshaft so designed that the valve push rods follow them sely, preventing valve clicking:

GASOLINE ECONOMY

You will get from 20 to 30 miles per gallon of gasoline, depending on the speed at which you drive. Feed to the carbaresor is by gravity from a unique welded one-piece seed tank integral with the cowl.

UNIQUE NEW OILING SYSTEM

The olling system is distinctly Ford in design, being a biasion of pump, splash, and gravity feed. The pump by gravity feed to the main bearings of the trankshaft. ing cap, so that the force of rotation of the crankshaft divise oil into the connecting rod bearings, as well as aplashing oil over all working parts within the angine. This is a simple but entirely dependable system, assuring peoper lubrication of each bearing and each cylinder without pressure.

PERFECTED COOLING

The new Ford car has a contrifugal water pump, and large redistor. The fan runs on the pump shaft and is made according to airplane propeller design. It is exceedingly difficult to make the new Ford engine overheat; only see will do it, such as running without enough oil.

IGNITION SYSTEM OF NEW DESIGN

The ignition system of the new Ford is unique in mechanical design, extremely simple, and will give the car owner ctional performance with a minimum of trouble. There is only one coil, in a water-proof case. The distribmeet is located on top of the engine where it is clean and easily accessible. Connections are made to the sparkglugs by short bronze springs. The coincidental lock on the new Ford is placed in the ignition circuit. It not only sociaces the regular ignition switch, but in the "off" position grounds the entire circult: From the switch to the distributor a steel cable protects the primary current wire, this wire being grounded to the distributor casing, thereby making it impossible to wire around the device. The new generator is of the power-house type.

STANDARD, SELECTIVE GEAR SHIFT

The new Ford transmission is of the selective sliding gear espe, with standard shift. It has three speeds forward and one reverse. The main shaft runs on ball bearings, the ershaft on roller bearings, and the reverse idler on a broate bearing. This is the highest type of bearing usting and is unusual on light cars. All gears are made of heat-treated chrome alloy steel. You will be delighted with the easy, noiseless shifting of gears in this new transmission. You can go from one to another easily, silently, with the pressure of a finger.

EXCEPTIONALLY EASY TO STEER

The steering gear on the new Ford car is irreversible; Shocks are not transmitted back to the hands of the driver. You need not grip the wheel tightly. A light touch is smooth to guide the car safely. Large steering wheel is he of steel, covered with hard rubber. Light switch and horn button are conveniently located on top of wheel.

NEW FOUR-WHEEL BRAKES

The brakes on the new Ford car are an exclusive Ford ut. They are of the mechanical, internal exoe type and are self-centering. This is the cliable and the simplest type of four-wheel brake d the easiest to adjust. All adjustments are made from equals without removing any parts. No special ele see agedel: Uniform, cornect adjustment to profit

wheel is quickly and easily obtained. The brake pedal and the hand lever each operate all four brakes. Total braking surface is 168 square inches. All brake working parts are cadmium plated to make them rust-proof.

MULTIPLE DRY-DISC CLUTCH

The clutch in the new Ford is of the multiple dry-disc type, which is the most reliable. It is also the easiest to erate, for it takes hold gently and smoothly. It has four driving discs and five driven discs.

COMFORTABLE TRANSVERSE SPRINGS

The springs are of the transverse, semi-elliptic type designed and built for the new Ford. This type, which was used in the Model T, was adapted to the new combecause no better spring type could be found. They are built of the finest spring steel, and the leaves are wide and thin. Each spring is built up of varying sizes and minibute of leaves to give proper flexibility and to meet riding requirements of the difference beautiful and to meet riding. requirements of the different body types. The size and umber of leaves used in these springs is one of the ressons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of the 4-wheel brakes.

HYDRAULIC SHOCK ABSORBERS

The finest type hydraulic shock absorbers are standard equipment on the new Ford. These combine with the center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford one of the most comfortable cars on

THREE-QUARTERS-FLOATING REAR AXLE

The rear axle of the new Ford is of the three-quartersfloating type. The axle housings are made entirely of steel, built up by welding steel forgings to steel tubing: The differential housing, to which these housings are bolted, is made of rolled channel steel. The atle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. All bearings in the rear axle are of the roller type. Drive is by spiral bevel gear.

FORD-DESIGNED STEEL-SPOKE WHEELS

Original design and great strength are two features that mark the unique, Ford-designed steel-spoke wheels: Each wheel is assembled by welding, and becomes one piece of metal. Spokes cannot work loose. Each spoke do not cross, so that the wheels are easy to clean. There are only 30 spokes in each wheel.

BEAUTIFUL NEW LOW BODY LINES

There is a bit of the European touch in the coachwork and contour of the new Ford. Bodies are steel. Fenders are of the full crown type. Appointments and hardware are of a luxurious type seldom found in a low-price car. Upholstery is of rich, durable material. Cushions are deep and easy. Door handles and window lifts are fully nickeled. Speedometer, gasoline gauge, ammeter and ignition lock are mounted on an instrument panel of satin-finish nickel, illuminated by a lamp in center. Headlamps and radiator shell are fully nickeled. Closed cars have the new military-type sun visor and crown roof. Great care has been taken in designing the new Ford to provide generous seat space and ample leg room. Clear, unobstructed vision is assured at front by unusually narrow pillars and at sides by specially designed doors with large windows:

CHOICE OF FOUR COLORS

The color combinations used on the new Ford are especially artistic and attractive. Four color choices are offered for each body type-a most unusual feature in a low-price car. Purchasers may choose any one of the following colors-Niagara Blue, Arabian Sand, Dawn Gray, and Gun Metal Blue. Belt and reveals are finished in contrasting colors, with attractive striping. The finish is pyroxylin lacquer, one of the finest and most enduring finishes for automobile bodies. It is not affected by heat or cold, withstands all kinds of weather conditions, and is not easily marred or scratched. The lustre actually improves with washing.

A QUIET CAR

In designing the new Ford, every procaution was taken to prevent squeaks, rattles and drumming sounds. Body panels and frame sections are welded and riveted together wherever there is possibility of the body weaving. In all structural details the new Ford bodies are built to afford the utmost quietness and comfort.

GREASE GUN LUBRICATION

The chassis of the new Ford is lubricated by the pressure grease gun system, the simplest and most effective method

Ride Safer on Daytons

Isn't your personal safety a vital factor to you? You will admit, will you not, that you are exacting more from your tires today than ever before? That you are traveling faster on paved streets and over smooth-surfaced roads? Then are your tires thin-treaded? Do they contain lifeless Reclaimed Rubber, just to hold the manufacturing costs down? Are the number of their plies skimped down to FOUR when there should be SIX? Or EIGHT, when TEN should have been built in?

Do you realize that Dayton "Thorobred" Cords and Balloons are heavier tires? That they are stronger and Sturdier tires? Motorists who look ahead put their faith in Daytons. They know that the sense of added security when riding on Daytons is worth a great deal to them, and to others in the car. Let your next tire or set, be Daytons. They will hold in any emergency.

Comment on the Uniform International Sunday School Lesson For December 4, 1927. Read Isaiah 5.

WM. SOUTHERN. JR.

Isaiah Teaches Right Living.

laiah 5: 1-12 Lesson—Isa. 5: 1. Let me sing for my well-beloved a song of my beloved touching his vineyard. My well-beloved had a vineyard in a

very fruitful hill: 2. and he digged it, and gathered out the stones thereof, and planted it with the choicest vine, and a tower in the midst of it. and also hewed out a winepress therein: and he looked that it should bring forth grapes, and it

brought forth wild grapes.

3. And now, O inhabitants of Jerusalem and men of Judah, judge, I pray you, betwixt me and God an

of seed shall yield but an ephah.

11. Woe uto them that rise up early in the morning, that they may and the walls torn down and briars follow strong drink; that tarry late grew on that fertile hill. into the night, till wine inflame

And the harp and the lute. the tabret and the pipe, and wine are in their feasts; but they regard not the work of Jehovah, neither have they considered the operation of his hands.

horseshoes at an iron peg. When he returned home my friend made this comment, after telling me about watching the men pitching horseshoes. "Bill, when I die I want to be buried, I do not want to stand around and pitch horseshoes." My friend died a few years ago and

more to my vineyard, that I have I have known but few men in my not done in it? Wherefore, when life whom I thought had made the l looked that it should bring forth grapes. brought it forth wild grapes?

1. And now I will tell you what I will take away the hedge thereof, and it the property in the word man. I have nothing to say avert the tragedies sweeping upon the looked that is should be needed to be say avert the tragedies sweeping upon the said would have a the nation. Isaiah stood to the last the nation. Isaiah stood to the last the nation. Isaiah stood to the last the nation. take away the hedge thereof, and it shall be eaten up; I will break perfect right to use what he has in honoring God and in the firm and to make of his life what he belief that God always does as He pleased. But most of us, I think, own mation, but he painted a pictural shall come up briers and there shall come up briers and there shall come up briers and the water and acknowledge that they rain no rain upon it.

7. For the vineyard of Jehovah

7. For the vineyard of Jehovah of hosts is the house of Israel, and the men of Judah his pleasant plant; and he looked for justice, but, behold, a cry.

8. Woe unto them that join house to house, that lay field to field, till there be no room, and ye be made to dwell alone in the ye be made to dwell alone in the midst of the land!

9. In mine ears saith Jehovah of hosts, Of a truth many houses shall be desolate, even great and fair, without inhabitant.

10. For ten acres of vineyard shall yield one bath, and a homer of seed shall yield but an ephah.

tended the young vines, built a tower on the hill for the caretaker and a strong wall amount the vineyard to protect it. Then when he came to gather the grapes he found that the vineyard had produced only useless, small, bitter, wild grapes. Isalah then asked what should be done with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by a proposed by one with such a vineyard by one with a vineyard by one w yard. He answered his own ques The vineyard was destroyed

> Jesus used almost exactly the same parable several times in his life time. He told of this man who gave to his servants five talents, two talents and one talent and rewarded the two who made good, while he punished the one who did not increase his capital, although he had kept it intact.

less and widows in their affection. When he was a young man Issueh and to keep oneself unspotted from had a vision. He dedicated himself the world.—James 1:27.

(Text is from the American Standard Edition of the Revised Bible copyright, 1901, by Thomas Nelson & Sons, and used by permission.)

Early in my newspaper career I was asked by an old editor if I had ever gotten out a paper with which life understood around pitching to horseshoes and refused to honor visualize Judah at the time Isafab was asked by an old editor if I had ever gotten out a paper with which horseshoes and refused to honor I was completely satisfied. It was God and to show Him in their lives that first time such a though had been presented to me and after a ful for what He had given. So moment I replied that I never had and that when I did I would quit listened and laughed at the young the business. Many years have enthusiast. His society friends and that when I did I would quit the business. Many years have passed since that time and I am more firmly than ever of the opinion that man who is completely attisfied with what he has accomplished is ready to die.

One of my good friends who is now dead illustrated the same idea is this way. He had just returned from the poor, as Islain but it this way. He had just returned from the poor, as Islain but it this way. He had just returned from the poor, as Islain but it morning and examine the fruit from the poor, as Islain but it morning and examine the fruit from the poor, as Islain but it morning and examine the fruit this way. He had just returned to field." The priests laughed a termine the street exists and continued to reing?—The Republican Syndicate.

musicians of the United States. both as a teacher and a composer. He will play several violin num bers during the recital. He is the head of the School of Music of T.

W. C. Mrs. Lindsay is one of the lead ing singers of the Southwest and is head of the Voice department of the School of Music, and director of the Glee Club.

ORGANIZE AGAINST RATS

War on rats has been declared in Navarro county as well as in many other sections of the state with numerous communities organizing systematic rat extermination campaigns. The Corsicana Chamber of Commerce is sponsoring the campaign in Navarro county and the conducted with great success.

All of the schools of the county have become interested in the campaign and the valuable prizes offered are causing keen competition connection with the campaign, the out that "no less than 2,000 colchildren of the county are also get- ums of favorable publicity in news the rural districts, poisoning is the The advertising obtained in newsthe rat is being eliminated mostly purchased for \$250,000. by trapping and by improved methods of garbage collection.

The state department of health is urging the enforcement of modern methods of garbage collection in towns, and provisions for rat proofing of all new buildings constructed as effective anti-rat measures.

THE REPUBLICAN DILEMMA

Senator Borah's opinion that by his speech at the Union League, Philadelphia, President Coolidge "unconsciously erased" his previou: retirement from the presidential lists of 1928 and was re-entered in the running, appears to have been shared by many others. General ly the speech was accepted as a keynote for the next campaign.

Meanwhile the course of political events continues to indicate the party exigency which, coinciding with popular demand, is likely to in Texas should read the book make demand upon President Coolidge for service, in spite of his

A recent straw vote of editorial preference, announced in Washington, showed an overwhelming lead for Mr. Hoover's candidacy, the assumption being that the president was to be considered unavailable. The Hoover strength is becoming more apparent idaily. But the opposition is adamant. New York Mr. Hughes, and rumor to which the New York World gives cur-means committee. Mr. Martin was reacy that a Dawes movement is making headway in New York general chairman of the original City, is of the same cloth in that it tour. indicates an anxiety to head off Hughes on the plea that he can its vast resources will show an carry the Empire state against Governor Smith, or by the vice the above will do much to awaken president if the West will not accept the New Yorker. Long ago it was conceded that Mr. Dawes would likely be heir to whatever delegates the Lowden boom could corral.

a principal contest between the pro- tion. Now is the time for Corsi-Hooverites and the antis would cans to secure the necessary acremake opportunity for a dark horse age for a modern airport. The and put a premium upon the time is near at hand when every strategy or compromise. But 1928 city in the United States of any is not to be a good year for the importance will be forced to prorunning of dark horses.

covers is found valuable informa tion concerning this now famous trip which when read in its compact form and interesting style those who were not so fortunate as to have been a member of the party will further realize what was accomplished in the way of bringing Texas before the people of the East and North.

In the introduction it is pointed out "in order to have a permanent record of some character of he All-Texas Special Good Will Tour and at the same time place at the disposal of all who may use it advantageously the symposium on Texas which the addresses of the Texas representatives consti-To those who want their paper tute, it was decided to publish this report on the trip." "The sory of the Tour" written

by Mr. Molyneaux goes into some detail on the entertainment and welcome for the party at every city visited.. "In every city visited the leading citizens came out to meet the Texans and hear their messages," Mr. Molyneaux writes. In this same paragraph it is also related of the meeting of Col. Lindbergh in St. Louis; that the New York Cotton Exchange stopped trading one hour to hear the message of Texas presented by Gov. Moody, and at Boston the leading investors and investment bankers of New England assembled. Of Gov. Moody's part in the trip Mr. drive against the rodents is being Molyneaux writes: "It should be remarked in this connection that Gov. Moody's presence with the party contributed immensely to its success."

Concerning constructive publicity in the collection of rat tails. In received on the trip it is pointed ting much information concerning papers and magazines covering the the habits of rats which may be entire North and East were printuseful to them in later life. VISIT TO MEXICO

By Associated Press.

Amarillo, Texas, Nov. 29.—Miss
Eva Amos of this city, who was
stabbed in the breast recently in an encounter with a Mexican at Zo-corro, N. M., is recovering at her home here. Miss Dora Lanning, her companion, who was stabbed in the arm was only slightly hurt.

The young women were en route

to visit Miss Amos' brother, stopping at Zocorro, when she became iii. They told officers that a young Mexican, apparently intoxicated. forced his way into their room and with the knife. Their assailant is understood here to have pleaded guilty. The young women returned here as soon as they were able to travel.

DYNAMITING OF DIPPING VATS HAS AROUSED OFFICIAL

Special to the Sun Groesbeck, Texas, Dec. 1, -County Judge Fountain Kirby has issued a warning that state rangers may be sent here to investigate if there are any further dynamiting of cattle dipping vats in Limestone county. A cow dipping vat built by the county for state inspectors was dynamited in the Headsville community, near Kosse, and after it was rebuilt the vat was again

Near the edge of the county and adjoining a county which is not co-operating in tick cradicating work the Headsville farmers are bitterly opposed to enforced dipping and authorities find it almost impossible to get any information about the blasting.
"We are not going to ask for ran-

gers but the state may send them here if this opposition to state inspectors continues," says Judge

BLOODLESS BATTLE WITH INDIANS TOLD BY PIONEER CITIZEN

C. D. BOWMER TELLS OF DAYS OF OLD TRAIL DRIV-**ERS AND THEIR PROBLEMS**

(The following interesting account of a bloodless battle with the ndians while driving a drove of cattle from Texas to Kansas is related in an interesting manner in the following article by C. D. Bowner of Corsicana, Route No .6. Mr. Bowmer is one of the Old Trail Drivers remaining in Texas and his eminiscences are very interesting. -Editor).

It was in 1870 that found me again on the cattle trail bound for North Platte, Neb., with 2,000 head of cattle to be delivered to Jack Pratt, who ranched then, 4 miles south of that place. We drove the cattle from San Antonio, crossed Red River at Spanish Fort or Red liver Station into what was then Indian territory and it was Indians hen and nothing else.

Nothing happened except the general routine, until we were near the Red Fork of the Arkansas river, when we were just starting out on the trail for the morning drive. We met about 20 Kiawa and Comanches, who had left the reservation for a little develment and were making for Texas to steal horses and murder, when oppor-tunity offered. They divided and one-half went down one side of the herd and the others took the other side. They robbed the boys of quirts, spurs, ropes, etc.

I being the only man in the outfit who had ever been up the trail. I knew pretty well what they would do when the come across the wagon, which had not yet left camp and was in charge only of Henry the negro boy cook. Myself and the other pointer of the herd drop ped back and let the next two men point the cattle and rode hard as we could back for the wagon.

I was armed with two as good six shooters as were to be had at that time. When I came in sight of the wagon, I saw that they were robbing it. I drew one gun and began firing and those Indians got busy getting away from there, hough there was a good many who had not got away when I ran into them. They were only armed with bow and arrows and not a one of them offered to fight or to hart me. They were only bent on getting away from there.

I suppose you are curious to know

here my partner was all this time. His horse took cold feet when just out of shooting distance and he did not show up until the Indians had gone. It always has been a mystery to me why those Indians did not kill me. I was not scared a bit until it was all over, then I saw the foolbardiness of my act and did not blame my partner so much, but I saved part of our supplies which was so hadly need-ed ina country where none were to

That was the worst scared negro ever saw. He was shaking like chill; his eyes just a little bigger than I ever saw in a negro's

Now in that wagon I had a little trunk; in that trunk I had a small supply of medicine which I always carried on the trial. I had among other things two bottles of the best whiskey I could get. This whiskey was never uncorked unless some one was sick and needed it. I knew if those Indians got that whiskey that someone—probably all of us—would be killed, but divine providence. I always believed caused them to overlook the little trunk. However they got all the

They scattered flour and other articles for a half mile. In the scrap I emptied both guns but did not try to kill, for I knew that that would not do, but wanted to

that would not do, but wanted to scare them away.

The fact that Gen. Sheridan was then at Camp Supply with his famous cavalry. I always believed saved my scalp. Just a little while prior to that Gen. Sheridan had given them a good dubbing and killed Little Kittle, their chief, and had gut them on a reservation had put them on a reservation.

I have had other experiences with Indians which I may write about later. As very nearly all the Old Texanss and Old Trail Men on texanswand on train men are passing away it may prove in-teresting to some, especially to the boys, who may want to know how we boys of the 60s and 70s managed, especially during the civil war, when we were blockaded and had to use our heads to devise plans to get along. I will say that I saw Corsicana

when there was only a few houses when there was only a few houses around where the court house now stands. I also saw Dallas and Fort Worth when Waco was much the large riown of the three.

CORSIGANA TO GET FIRST DESCRIPTION **NEW FORDS FRIDAY**

SHOWING OF NEW FORDS WILL TAKE PLACE OVER **NATION TOMORROW**

Corsicana will get its first full escription of the new line of Ford

automobiles tomorrow. the local dealers is part of the Na-tional introduction of the new Ford nodels. In thousands of communities all over the United States tomorrow this new line of moderate priced light automobiles wil be introduced to millions of peo-

The doors of the showrooms are to be opened promptly at 7 o'clock and attendants will be on hand throughout the remainder of the esting features of the car which is expected to make a new chapter in automotive history.

Mr. Ford himself has announced that "there is nothing quite like the new Ford car," and has stated that it will prove just as great a pioneer in the present field of low price light cars of quality as the famous Model T was a pioneer in its field for more than nineteer

Among the visitors to the recep-tion tomorrow will be many city officials, executives of business civic and professional organiza-tions and other leaders in the life. of the community, who have been specially invited.

The performance of these new

cars, it is said, will be startling when viewed in the light of automobile performance of the past.

The local dealers have been nolified by Ford officials at Detroi that the factories throughout the country are now preparing to produce the new cars in numbers ex ceeding even the tremendous pro-

duction records achieved in the manufacture of the Model T line Company officials at Detroit also repeated their early announcement that production of the new Ford line will not make the Mode T line obsolete. The manufacture of new parts for Model T replacements will continue to be an im-portant factor of the Ford plants as long as any of the Model T care are still in operation, the loca dealers were advised. Because of this policy, present owners of Model T Ford cars will be able to keep their cars in perfect order a long as those cars remain in com

Ford Will Speed Up Production

By Associated Press. Detroit, Dec. 1.—The Ford Motor Company which has been technically "out of production" for some months, plans to step up produc-tion immediately, Edsel B. Ford president of the company, indicat today in discussing the new model which formally will be shown to the public tomorrow.

Prices for the new models were announced by the company last night and show a schedule ranging from \$385 for the roadster to \$570 for the "Fordor" Sedan. The figures represent an increase of \$10 to \$35 over the old model.

Production now is averaging from 65 to 70 cars a day. Edsel Ford declared. The "Stepping up" program will go into effect shortly, he said, and by February it is planned to produce daily 1,000 more unts than in the preceding

WORTHAM CHAMBER TO HOLD ANNUAL **BANQUET DEC. 7**

The Wortham Tri-County Cham-ber of Commerce will give their annual banquet in the basement of the Methodist Episcopal church on Dec. 8. at 7 o'clock, and plans re being made for a big event.

Plates will be prepared for several hundred members and guests, there being quite a few citizens from neighboring sections invited

to the banquet.

Joseph F. Leopold of the United States Chamber of Commerce will be the principal speaker, to-

CORSIGANA

BIKE SIMMONS TO LEAVE CORSICANA; **GOES TO MIDLAND**

F. W. SMITH, HONEY GROVE TO COME HERE AS MAN-AGER CORSICANA LBR. CO.

A change in managers of the Corsicana Lumber Company was an-nounced Thursday morning. F. W. Smith of Honey Grove will re-lieve Bike Simmons, who has been manager of the firm for several years, and Simmons will take charge of a number of yards in the West Texas area, with head-quarters at Midland.

Smith has been manager of the Lyon-Gray Lumber Company at Honey Grove and has arrived in Corsicana. He will be followed by his family at an early date.

Simmons will be connected with the Galbraith-Fosworth Lumber Company with offices at Midland and yards at Odessa. Monahan The new Ford cars are said to be the product of several years of study and planning by Henry Ford and his engineers in the great Ford laboratories at Dearborn Mr. Ford himself has engineers in the great Port in the surrounding territory. The change was necessitated by the health of simmons' daughter. He is scheduled to take charge at Midland December 10. Pyote and other points in the sur

tomed place in front of the judge's bar and conversed with his moth-er-in-law and sister-in-law, but he quickened as the jury filed in.

started Monday, the defendant showed emotion during the arguments of John R. Curington, defense counsel, when he appealed for mercy for his client, and portrayed a pitiful picture of the ill mother of the accused man at her mother of the accused man at her home in East Texas, unable to be present for the trial. Tears ap-peared in the eyes of the otherwise composed man who had sat there. the electric chair.

The arguments in the case started Wednesday afternoon with the opening argument by Cleo G. Miller, assistant county attorney, who asked for the death penalty. Court adjourned after Mr. Miller's arguasked for the quantification of the defense.

He testified to taking mony of her husband to that he had been in Baltimore for ber.

"I told him I saw by the papers a month at the time he met Beach, he was followed by John R. Curington and the case was concluded by L. J. Woods, county attorney who asked for the death penalty who asked for the death penalty for \$600, but I said I was no bank. They said they wanted the money to take some jewelry out of soak marriage, she said, he described himself as a lawyer and a ranch money and that since

om again was crowded to capac-

defense attorney's motion for continuance of the case on grounds of absence of material witnesses, The selection of the of material jury started Monday afternoon at 2 o'clock and the twelfth juror was selected Tuesday after 40 prospec-eive jurors had been examined

The case has been bitterly con tested and fought between the at-torneys of both sides, both sides being unusually strong in their objections and exceptions of proceed ure and the admission of testimony Defense Attorneys Lovett and

Curington were appointed as counsel by the court. Howe entered a plea of not guil ty when arraigned Tuesday morning. He did not take the witness every move and proceedure of the

stand in his own behalf. How-ever, he took a keen interest in trial and was in conference with his attorneys continually during the questioning of witnesses on Defense Witnesses Arrested.

As a bomb came the arrest of Mrs. C. C. Howe, wife of the accused; J. E. Howe, Jr., brother of the accused; Louis York, brother of Mrs. Howe, and York Whend do of Mrs. Howe; and Jeff Ward, de-fense witnesses who testified for Howe and swore that he was in Queen City, Texas, on that date. The four were arrested Wednes-day afternoon at 3 o'clock, a few minutes after the conclusion of the testimony on complaints filed by of Mrs. Howe; and Jeff Ward. testimony on complaints filed by the sheriff's and county attorney's offices for alleged perjury in con-nection with their testimony in the

CARE. The four were still in the Na varro county jail Thursday morning and County Attorney L. J Woods said that nothing would be done in that matter until the verdict of the jury in the C. C. Howe case was returned. He intimated would be vigorously that they would be vigorously prosecuted and intimated that the matter would be placed before the Navarro county grand jury when it reconvenes. The perjury charges are punishable by penitentiary terms, and in some cases, heavy penalties are provided for those consistent of persury.

Death of Mrs. Vincent at Eureka

Mrs. Maria Lon Curl Vincent, after a long illness, died at the home of her daughter, Mrs. I. R. Dardood at Eureka, Texas, November

11, at 10:15 p. m. Mrs. Vincent was born in Kan-Marriage License.

Will Jones and Arthor Selma.
L. C. Graves and Hattie Mas old. Was married to G. W. Vincent, March 4, 1865, and with their three young children came to Tex-as in 1875. Her husband preceded A. P. Webster and Mrs. Minnie !, Green. her in death 23 years.

For a number of years, Mrs. Vincent lived with her son, C. N. Vincent of Waco, Texas. Few friends are still living who knew her intimately during her residence there. The past twelve or fifteen years. she has made her home with her daughter, Mrs. Darwood, living in

or near the vicinity of Wortham.

A devout christian and faithful member of the Baptist church since early childhood. Always took an active part in the work of the church until the last fifteen months of her life she was not priviledged to attend church.

There were many expressions of sympathy and floral offerings in the loss of this dear woman.

With Rev. R. B. Thorn of the
Columbus Street Baptist church officiating, the body was laid to rest beside her husband at Oakwood Cemetery, Waco, Texas, on Sunday, November 13, at 2:30 p. m.

Surviving the deceased are: a sister, Mrs. Julia Reynolds, Kansas City, Mo., a daughter, Mrs. I. R. Darwood, Eureka and a son, C. Vincent of Waco. Chas. Darwood, Anna, Texas,

Milton Darwood, Quanah, Texas, Mrs. Walton Lindsey, Wortham, Texas, and Mrs. Jim Crowder if

been pierced.

Dr. Lee Hudson of Dallas, the wounded student's brother-in-law, said Thursday that the wound would pove fatal. It was likely, he had been been provided not like.

Honorary pall bearers were: Dr. Honorary Dall bearers were Jim Tissley, Jim Majors, C. H. Olsen.
